Frontend Developer 📍 Pune, Maharashtra, India | 📞 +91 8999117971 | ✉️ fationplanet@gmail.com | 🔗 [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate and aspiring Frontend Developer with hands-on experience building responsive websites and practical web/PWA projects. Proficient in HTML, CSS, and JavaScript with a strong focus on clean, mobile-friendly, and user-focused web interfaces. Eager to leverage technical skills in an entry-level role, contribute to real-world software development projects, and continue growing within a collaborative engineering team.

TARGET ROLES

- Frontend Developer Intern
- Web Developer Intern
- Fresher Frontend Developer
- Junior Web Developer

TECHNICAL SKILLS

- **Core Web:** HTML5, CSS3, JavaScript (ES6+)
- **Design & Layout:** Responsive Web Design, Mobile-First Design
- **Web Applications:** Progressive Web Apps (PWA)
- **Tools & Workflow:** Git, GitHub, VS Code, Chrome DevTools
- **Deployment:** Basic Website Deployment

KEY PROJECTS

1. Sakshi Digital Studio | *Responsive Business Website*

- Designed and developed a mobile-friendly business website for digital service offerings.
- Implemented structured sections for service catalogs, pricing tiers, and interactive contact workflows.
- Integrated direct WhatsApp enquiry functionality to streamline user communication and lead conversion.
- **Tech Used:** HTML5, CSS3, JavaScript, Responsive UI.

2. Lifemate | *Meal Planning Web Application*

- Built a functional frontend web application to help users organize and track daily and weekly meal plans.
- Created intuitive user interfaces focusing on accessibility, smooth navigation, and clean

layout structure.

- **Tech Used:** HTML5, CSS3, JavaScript, Mobile-friendly Design.

3. SST-APP-PWA | *Progressive Web Application*

- Developed a Progressive Web App focused on responsive application screens and browser-based workflows.
- Ensured high performance, fast loading, and fluid adaptation across desktop and mobile devices.
- **Tech Used:** PWA Architecture, JavaScript, Responsive UI.

4. Salt Spray Report PWA | *Industrial Report Management PWA*

- Formulated a PWA designed around salt-spray testing data collection and report generation.
- Implemented structured input forms for precise data entry and clean report layouts for inspection reviews.
- **Tech Used:** PWA, Web Forms, HTML5, CSS3.

5. JOBCARD | *Web-Based Job Management Tool*

- Built structured frontend forms and layout screens for job-card tracking and operational workflow management.
- Optimized UI responsiveness for seamless use on desktop workstations and mobile screens.
- **Tech Used:** HTML5, CSS3, JavaScript, Responsive Design.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

G.V.I.S.H. College, Amravati (Autonomous) *Government Vidarbha Institute of Science and Humanities*

- Core Focus: Computer Science Fundamentals, Web Technologies & Software Concepts.
